By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman. I have been enabled to perfect a most potent and agreeable medicine that meet the indications presented by that class of dis-ences with positive certainty and exactness. To designate this natural specific compound. I have named it

Dr. Pierce's Favorite Prescription

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as the climax or erowning gem of my medical career. On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sangular expectations of a single invalid lady who uses it for any of the aliments for which I recommend it, that I offer and sell it under A POSITIVE GUARANTEE. If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case tening one for which I recommend it, promptly retund the movey paid for it. Had I not the most perfect confidence in its virtues, I could not once it as a townwise decommend to the most perfect confidence in its virtues.
